

Eltham Station Car Park

Early works – April 2022

The Victorian Government and Australian Government have partnered to deliver more commuter car parking for Eltham Station. This will free up local streets and make it easier for passengers to catch the train.

Eltham Station commuters will soon benefit from new and upgraded parking spaces. New lighting, CCTV and bicycle hoops, will be installed to make it safer for commuters and more convenient for people to ride to the station and further ease pressure on car parking.

What to expect?

From late April, early site preparatory works will start at the new car park location and include:

- Set up of site fencing for construction.
- Site offices and parking for the construction team will be set up on Youth Road (refer to map overleaf).
- Locating and relocation of underground services.
- Ground improvement works.
- You may notice some construction noise and activity with vehicles and workers moving around the area.
- Temporary traffic management measures may be in place, however, access to properties will be maintained at all times.
- Further information will be distributed before main construction works begin.

Works will occur **Monday to Saturday**, between **7.00am** and **6.00pm**, with some out of hours works required at times.

Health and safety

Works on the Eltham Station car park project are being carried out with COVIDSafe Plans in place to help protect workers and the community.
