

Eltham Station car park – works update

Start of works and vegetation removal – May 2022

The Victorian Government and Australian Government have partnered to deliver more commuter car parking for Eltham Station. This will help free up local streets and make it easier for passengers to catch the train.

Eltham Station commuters will soon benefit from new and upgraded parking spaces, new lighting, CCTV and more bicycle hoops. These upgrades will improve safety, make it more convenient for people to ride to the station and further ease pressure on car parking. Works will be complete by early 2023.

Works taking place

Over the coming months, works will include:

- Vegetation removal to make way for new infrastructure. Once major construction is complete, more than 3,000 seedlings, plants and shrubs will be planted in the area.
- Site establishment and relocation of the Metro Trains Melbourne (MTM) storage yard to make way for the new car park. See map overleaf.

What to expect

- You may notice some construction noise and activity with vehicles and workers moving around the area.
- Temporary traffic management measures may be in place. Access to residents and businesses will be maintained at all times.
- Works will take place **Monday to Friday between 7am and 6pm and Saturday between 8am and 1pm** with some out of hours works required at times.

Vegetation

- We are working to reduce tree loss where possible, but some trees will still need to be removed to make way for the new car park.
- A qualified arborist and ecologist will be present to check for any fauna before any vegetation is removed.
- Where possible, we will attempt to re-use or recycle trees that need to be removed.
- Over 3000 seedlings, plants and shrubs will be planted as part of landscaping works at the end of the project.
